CALL-OUT !!

**CALL-OUT!**

Complete disregard for rulings of eminent holy sages, of blessed memory, who lived over a hundred years ago, is obvious, straightforward, and unmistakable, display of stupidity. Signing documents against them. Flaunts, exhibits, blazes abroad, and proclaims ultimate ignorance of the subject matter involved.

Protesting against establishing erubin. Subject, those protesting, know nothing about. Displays, and demonstrates, complete ignorance of subject matter involved.

They are not greater, in any form or fashion, than those great holy sages, of blessed memory. Who ruled beyond any doubt. Eruvin can be established in all large cities.

More, so, they oppose their rulings without stating valid reasons. This exhibits, and shows off, their stupidity.

While those sanctioning, and endorsing, establishment of erubin in large cities. Explained in great detail, undisputable reasons for their rulings, with logical proofs. Those who signed against their rulings, cannot even comprehend, their involved discussions on this matter.

They will be damned eternally by the ALMIGHTY. Because, of their overt acts against holy eminent sages, of blessed memory, from past generations: and, those in our generation, may they live and be well, who abide by their rulings.

Respect for eminent holy sages, of blessed memory, from past generations, demands we protest against further publication of names, signatures without rhyme or reason, against establishment of erubin.

Because, it is stated clearly in the monumental work Igros Moshe: it is forbidden to protest against those who establish erubin. They have an absolute right to establish them.

Even if it was not stated there. This fact is self evident.

All those protesting against defamation of holy sages, from the past, of blessed memory, will be blessed eternally by the Almighty.
