בס"ד

Ignorant students from Yeshiva Torah Tememah, and, their teachers, who are equally ignorant, concerning eruvin, are rising up against Hagoan Reb Chiam Berlin, of blessed memory, and other holy sages, of blessed memory, who lived, and lit up the world with their wisdom, and holiness, a hundred years ago. These dense, stupid, people oppose eruvin that they approved of. When in reality they are unable to comprehend their detailed published discussions on this matter.

Let the public be aware. All opposition to establishing eruvin is ultimate stupidity. Because, there is no logical reason to prohibit their establishment in Brooklyn. Which is surrounded by four walls. This makes it a private domain.

Anything written by those against eruvin are lies, stupid, and not worthy of comment.

Those signing on documents against eruvin, display complete stupidity. Their signatures call-out to the world: I am dense, doltish, torpid, and non educated in this subject.
